### **Re: TennCare 90 Day Supply Medication list**

This memo serves as official notice of plan specification changes to be made by OptumRx as a result of the state fiscal year 2021 budget.

Effective September 1, 2021, TennCare will implement a new 90-day supply medication list. This list gives providers the option of prescribing and dispensing certain widely used medications in quantities up to, but not more than, a 90-day supply. Only one co-payment is collected from the recipient and only one dispensing fee is paid to the dispensing provider for the 3-month supply.

Attached are medications on the new 90-day supply list, which can also be found at [www.optumrx.com/tenncare](http://www.optumrx.com/tenncare).

This list is independent of the preferred drug list (PDL) and other criteria. All drugs on this list are still subject to existing TennCare edits, including non-preferred status on the PDL, clinical criteria, step therapy criteria, and quantity limits.

This plan specification change will apply to TennCare Medicaid claims only.
