TENNCARE AND COVERRX PROGRAM UPDATES REGARDING COVID-19 HEALTH CONCERNS

The primary concern of TennCare is to ensure members have uninterrupted access to medication during the COVID-19 threat. Temporary procedures have been deployed to ensure members continue to receive their medications and will continue to roll out in phases as needed:

Below is a summary of the temporary changes that are currently in effect due to COVID-19:

- Out-of-network pharmacy and provider fills were allowed until August 31, 2021 but **effective September 1, 2021, prescription drugs will only be paid for by TennCare if filled by pharmacies and written by prescribers who are registered with TennCare and have been assigned a Tennessee Medicaid ID.**
- Refill-too-soon edits were temporarily suspended in 2020 but were partially restored effective January 9, 2021.
 - Note: This waiver does not apply to opioids and other controlled medications. Call the Pharmacy Support Center to request an exception review.
- Patient signature requirements for proof of delivery are still temporarily waived for both shipped and in-person delivery for all Community Retail/Specialty Pharmacies. Delivery logs of impacted claims should be documented with the verbiage “COVID-19” and initialed by the pharmacy staff, in lieu of a recipient signature. The documentation must correspond to a specific prescription (e.g., Rx# and fill date).
 - Note: This waiver does not apply to Long-Term Care Pharmacies.
